Revolutionary
Designed
FAUCETS

ABOUT US :

We Established in the year 2021 and is an ISO 9001: 2015 Certified Company. Engaged in Contract Manufacturing a comprehensive range of Plastic Taps and Bath Fitting Accessories based on Engineering Polymers.

We have wide manufacturing facilities which are equipped with latest Injection Moulding machines with high-tech modern technology. We have in house R&D and testing facilities which ensures uniform quality of all products and carefully inspected by skilled Quality Control team.

Our Aim is to deliver best premium quality products with compititive rates. We are guided by the core concept of Adorability, Adaptability & Affordability which provides wide range of plastic taps and bath accessories.

OUR USP ARE

1. Our rising spindle is made up from POLYOXYMETHYLENE(POM) because of it high surface hardness, high density & high tensile strength of 69(MPa).
2. Sealing washer in rising spindle are highly flexible & highly durable.
3. We provide knob in two different kind of materials. For Crystal we use POLYCARBONATE(PC) and in full solid knob we use POLYPROPYLENE COPOLYMER(PPCP).
4. We make our Special COMPOUND material for our taps body, Which ensure our product will sustainable in all kind of weather conditions. And support both Hot & Cold water.
