About Us

CERAXIO, established in 2021, is a group-backed company specializing in the manufacturing and supply of PP woven bags and woven fabrics for industrial and commercial applications. Supported by a parent group with over 15 years of industry experience, CERAXIO combines deep technical knowledge with modern production practices to deliver reliable packaging solutions. The company offers a comprehensive range of PP woven bags and fabrics widely used in agriculture, cement, chemicals, fertilizers, food grains, and other bulk packaging sectors. With a strong focus on quality consistency, strength, and customization, CERAXIO ensures its products meet the practical demands of diverse industries. Driven by efficiency, timely delivery, and long-term partnerships, CERAXIO serves both domestic and international markets, providing dependable packaging solutions backed by experience, trust, and performance.
